VOLUME 65

1982

BULLETIN OF THE CRIMEAN ASTROPHYSICAL OBSERVATORY
(USSR ACADEMY OF SCIENCES)

PAGES
RUSSIAN/ENGLISH

An investigation of the global oscillations of the sun: 1. Methods and instruments. V. A. Kotov, A. B. Severnyi, and T. T. Tsap.....	2	3	1
The continuous emission of flares. E. A. Baranovskii and A. N. Koval...		35	31
The background magnetic fields on the sun during 1964-1978. N. N. Stepanyan.....		43	40
Quasi-static Stark profiles of hydrogen lines broadened by plasma turbulence. A. V. Galdetskii and E. A. Oks.....		59	54
The radio diameter of the sun at 1.9, 2.5, and 3.5 cm. A. F. Bachurin...		71	64
Radio observations of the solar eclipse of 24 December 1973 at 10 cm. O. Alvarez and Yu. F. Yurovskii.....		80	72
Quasi-periodic pulsations of the radio emission of a proton region on the sun in July 1974 at 3.5, 2.5, and 1.9 cm. V. I. Abramenko, N. N. Eryushev, and L. I. Tsvetkov.....		87	80
A comparison of catalogs of absolute energy distribution in stellar spectra. V. I. Burnashev.....		94	85
Analysis of spectra of T Tauri stars: AS 353, DI Cep, and RY Tau. V. I. Krasnobabtsev.....		100	91
A study of the chemical composition of the atmospheres of the red giants γ and ν^2 Cas and the supergiant ϵ Peg. O. N. Deinichenko....		116	106
A study of the rapid spectral variability of the Ap stars 53 Cam, 41 Tau, and β CrB in the Ca II K and H $_{\delta}$ lines. V. M. Kuvshinov and S. I. Plachinda.....		128	116
Polarization and photometric observations of the polarized star AM Her. Yu. S. Efimov and N. M. Shakhovskoi.....		143	129
The intrinsic (U-B) and (B-V) colors at the maxima of flares of UV Cet stars. P. F. Chugainov.....		155	140
The initial periods and ages of pulsars. S. A. Gerasimov, Yu. I. Neshpor, and A. A. Stepanyan.....		163	148
Rates of relaxation processes, and thermochemical equilibrium in the atmospheres of cold supergiants. V. P. Grinin and V. V. Tsymbal...		168	154
Evaluation of the exponential integral function with higher accuracy. D. N. Rachkovskii.....		180	166
New astronomical apochromats. G. M. Popov.....		184	170
