VOLUME 70

1985

BULLETIN OF THE CRIMEAN ASTROPHYSICAL OBSERVATORY  
(USSR ACADEMY OF SCIENCES)

PAGES  
RUSSIAN/ENGLISH

Fine structure of polarized flare elements. A. N. Babin and A. N. Koval.....	3	1
Quasiperiodicity of the flare activity of the Sun. V. I. Abramenko and M. B. Ogir.....	8	6
Excitation of oscillations in a stellar encounter. A. G. Kosovichev and A. B. Severnyi.....	14	13
The 160-min period in the solar system: solar pulsation and the spin rates of planets and asteroids. V. A. Kotov and S. Koutchmy.....	38	37
Periodic electron-density variations in the mean-latitude E-layer of the ionosphere with a period close to the 160-min period of solar oscillations. V. P. Bobova, B. M. Vladimirkii, and A. M. Lyatskaya.....	46	46
Magnetic splitting factors for selected solar lines in the range $\lambda 440\text{--}6750 \text{ \AA}$ , determined from measured Lande factors of combining terms. M. Dzh. Guseinov.....	51	51
Oscillator strengths for neutral iron and its abundance in the solar atmosphere. A. A. Boyarchuk and I. S. Savanov.....	57	57
Periodicity of fast variations in the $H_{\alpha}$ profile in the spectrum of the Be-star 59 Cyg. A. E. Tarasov and A. G. Shcherbakov.....	129	117
Peculiarities in the spectrum of the eclipsing binary AR Aur. T. M. Rachkovskaya.....	134	123
Interpretation of the profile of the OH 1667 MHz line of the maser source M1-92 and the problem of rotation of circumstellar envelopes. V. P. Grinin.....	139	128
Radio emission spectra of some extragalactic radio sources in the range 11.6-36.8 GHz. E. Valtaoja, M. Valtonen, V. A. Efanov, H. Lehto, I. G. Moiseev, N. S. Nesterov, E. Salonen, M. Tiuri, S. Urpo, and S. Haarala.....	144	133
Determination of the angular distribution of Cerenkov flashes due to extensive atmospheric showers with energy in excess of $10^{13}$ eV. B. M. Vladimirkii, Yu. L. Zyskin, Yu. I. Neshpor, A. A. Stepanyan, V. P. Fomin, and V. G. Shitov.....	152	139
Astronomical three-lens apochromatic objectives. G. M. Popov and M. B. Popova.....	158	145
Laser interferometers for testing astronomical optics. G. M. Popov and E. G. Popov.....	163	150
Multichannel angle ADC. V. G. Shitov.....	168	155
