VOLUME 74

1986

BULLETIN OF THE CRIMEAN ASTROPHYSICAL OBSERVATORY
(USSR ACADEMY OF SCIENCES)

PAGES
RUSSIAN/ENGLISH

Computation of synthetic stellar and solar spectra. L. S. Lyubimkov...	3	1
Atmospheres of δ Sct pulsating variables. IV. Abundance of thorium in 20 CVn, 28 And, V644 Her, and δ Del. L. S. Lyubimkov and T. M. Rachkovskaya.....	14	12
Variability of H_{α} emission in the spectrum of the Be-star 28 Cyg. A. E. Tarasov and A. G. Shcherbakov.....	19	17
Comparative spectral characteristics of the three Be stars ϕ Persei, θ Coronae Borealis, and X Persei. T. S. Galkina.....	23	21
Spectrophotometry of ζ Tau using 1983-1984 observations. I. Variability of the spectrum. T. M. Rachkovskaya and Ch. M. Nasibova.....	34	32
Narrow-band photometry of the magnetic variable β CrB. V. I. Burnashev, V. P. Malanushenko, and N. S. Polosukhina.....	42	40
Measurement of the magnetic field of β CrB using the $\lambda 4254.33$ Cr I line. S. I. Plachinda.....	47	46
Oscillator strengths for the lines of ionized iron. A. A. Boyarchuk and I. S. Savanov.....	49	48
Solar oscillations and rotation of close binary systems in the galaxy: the 160-minute period. V. A. Kotov.....	69	65
Velocity field and flare activity in a sunspot group. S. I. Gopasyuk and L. F. Lazareva.....	84	80
Solar flare grouping in time. M. B. Ogir.....	92	86
Characteristic time dependence of the structure of some chromospheric formations. L. G. Kartashova.....	101	94
Coronal millimeter-wave sources. I. G. Moiseev and N. S. Nesterov.....	112	104
A method of determining the solar radio radius by scanning. A. F. Bachurin.....	117	109
Spectrum of variations in the geomagnetic AE index in the range 130-200 min as a possible reflection of the spectrum of global oscillations of the Sun. V. P. Bobova, B. M. Vladimirkii, and M. I. Pudovkin.....	121	113
Observations of 5-minute oscillations in the brightness of the solar photosphere. L. V. Didkovskii and V. A. Kotov.....	132	123
Preliminary data obtained with the integrating spectrometer mounted on the solar tower telescope BST-2 of the Crimean Astrophysical Observatory. L. V. Didkovskii, I. E. Kozhevnikov, and N. N. Stepanyan..	142	133
Numerical algorithm for the solution of the equations of radiative transfer in a magnetic field. D. N. Rachkovskii.....	158	147
Ritchey-Chretien system with a pre-focal achromatic meniscus for a wide spectral range. G. M. Popov.....	161	150
