VOLUME 75

1986

BULLETIN OF THE CRIMEAN ASTROPHYSICAL OBSERVATORY  
(USSR ACADEMY OF SCIENCES)

PAGES  
RUSSIAN/ENGLISH

Solar flare layering. E. A. Baranovskii.....	3	1
Simulating thermal and gasdynamic processes in solar-flare pulse phases. A. G. Kosovichev.....	2 8	6
Processing photodiode-array solar-oscillation observations. A. G. Kosovichev.....	22	19
Possible effects on the Sun and close binary systems from background gravitational radiation with period 160 min. A. G. Kosovichev....	33	30
Solution of an inverse helioseismological problem from observations on solar gravitational oscillations. A. G. Kosovichev.....	40	36
Temperature and density variations in flocculi in a developing active region. E. A. Baranovskii, N. B. Ograpishvili, and N. N. Stepanyan.....	47	43
Examining whisker polarization with a $H_{\alpha}$ filter. A. N. Babin and A. N. Koval.....	52	48
160-Min solar flare activity modulation. V. A. Kotov and L. S. Levitskii.....	59	54
Active latitudinal zones and the radio-fluctuation power spectrum. N. S. Nesterov.....	67	61
Radio-emission fluctuations at 2.25 cm from the quiet Sun. L. I. Tsvetkov.....	77	71
Quasiregularity in the burst component of solar noise storms. Yu. F. Yurovskii and O. Alvarez.....	86	78
The axial-rotation velocity distribution in the solar system and the Sun's 160-min oscillations. V. A. Kotov.....	90	83
The 160 min period in RR Lyr stars in globular clusters and highly evolved close binary systems. V. A. Kotov.....	113	104
UBVRI photometry and polarimetry for the optical component of the A 0535 + 26 = V 725 Tau X-ray source. N. I. Shakhovskaya, N. M. Shakhovskii, and N. G. Beskrovnaya.....	120	110
UBV photometry of the symbiotic stars Z And and Ag Peg. T. S. Belyakina.....	136	124
Radiation losses from hydrogen gas in a moving medium showing predomi- nantly collisional atomic excitation and ionization. A. S. Mitskevich.....	142	130
Atmospheres of $\delta$ Sct pulsating variables. Part 5. Spectrum analysis for $\delta$ Sct (HR + 7020). T. M. Rachkovskaya.....	149	137
A model atmosphere and the chemical composition for the Ap star 73 Dra. L. S. Lyubimkov.....	155	143
Changes in the relative intensities of the V and R components of the $H_{\alpha}$ emission line and in the radial velocity derived from it for X Per- sei. T. S. Galkina.....	163	151
The photospheric spectrum of T Tau. S. A. Korotin and V. I. Krasnobabtsev.....	166	154
Photoelectric observations with the AZT-11 telescope on spectral vari- ability in Seyfert-galaxy nuclei. N. I. Merkulova.....	175	162
Photoguidance accuracy for the tower solar telescope: photodiode array measurements. L. V. Didkovskii.....	182	168
Diffraction images for aberration-free objectives with annular aper- tures. G. M. Popov, N. V. Steshenko, and M. B. Popova.....	189	174
